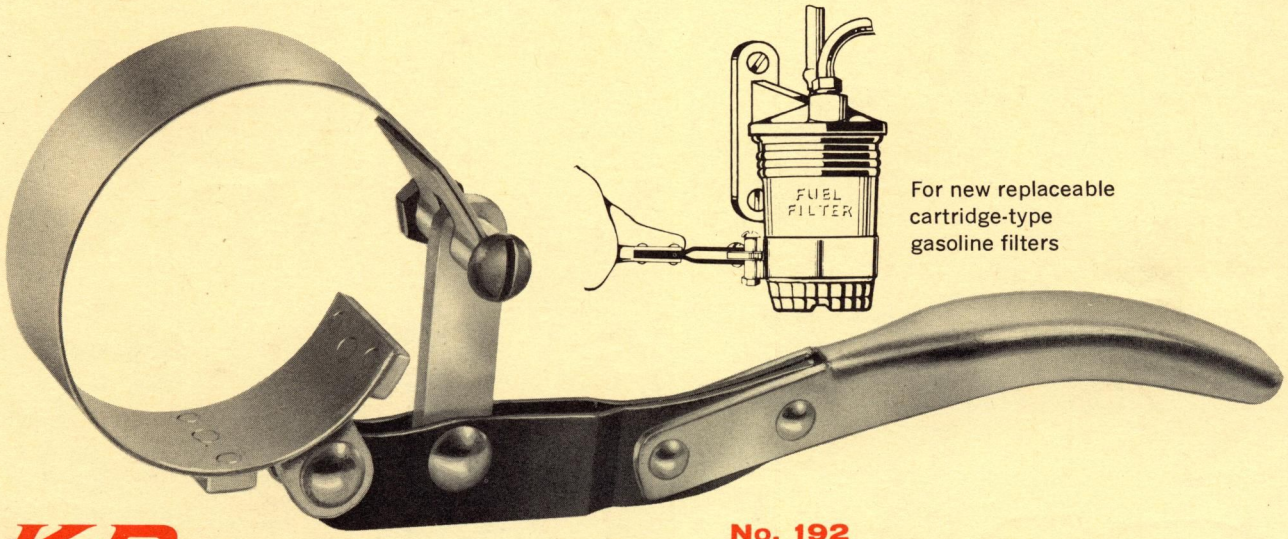
NEW PRODUCTS FROM K-D FOR BETTER AUTOMOTIVE SERVICE



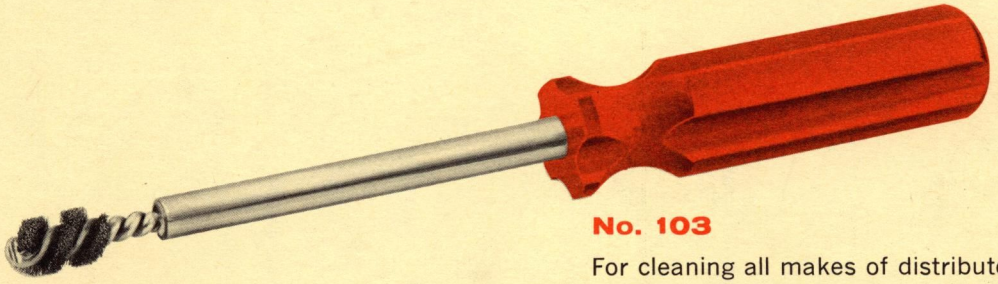
For new replaceable cartridge-type gasoline filters

K-D'S NEW FUEL FILTER REMOVER and INSTALLER

No. 192

Designed for the new replaceable cartridge-type gasoline filters to prevent crushing of filter case when replacing the cartridge. Patterned after K-D's popular 190 oil filter wrench, it has self-tightening ratcheting action, permitting operation with maximum amount of stroke in cramped areas. Lever arms and bolt are heat treated for high-strength and long-life.

$2.25 Resale



DISTRIBUTOR TOWER BRUSH

No. 103

For cleaning all makes of distributor Tower head sockets—this handy tool is a must for tune-up work. Just insert tool and twist—removes rust, dirt and corrosion. Made of high quality steel with easy grip red plastic handle.

$1.45 Resale

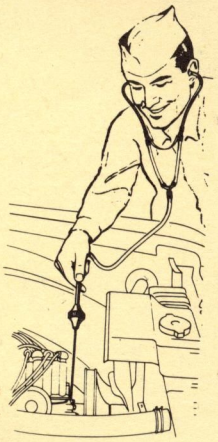
NEW PRODUCTS FROM K-D FOR BETTER AUTOMOTIVE SERVICE

MECHANIC'S STETHOSCOPE

with shockproof handle

Patent Applied for



No. 835

K-D's new Mechanic's Stethoscope provides a fast, accurate method of locating troubles in engines and other moving parts. Uncovers trouble areas *before* major damage. A convincing sales clincher in selling needed repairs to car owners. Probe uncouples for convenient lengths. Can easily locate and identify—

- Piston Slap
- Faulty Valves
- Worn Gaskets
- Worn Gears
- Water Pump Failure
- Frozen Shackles

Effective whenever trouble can be traced by sound, such as flow of water, oil, gas, steam, etc.

Made of chrome plated brass, with red plastic handle to guard against shock. Spring steel diaphragm for long accurate use.

$6.75 Suggested Resale

TRUCK BRAKE ADJUSTER

For all trucks with mechanically adjustable brakes

No. 282

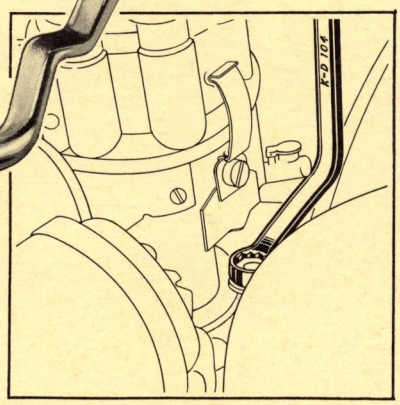
NEW PRODUCTS FROM K-D FOR BETTER AUTOMOTIVE SERVICE

universal

K-D DISTRIBUTOR CLAMP WRENCH

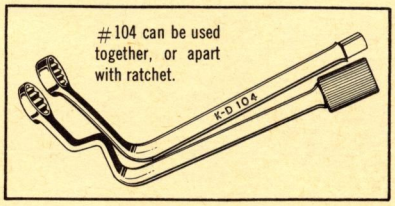
can be used with any ⅜" ratchet or extension

$6.95
Suggested Resale



No. 104

This universal tool is a necessity for any shop doing distributor work. The K-D #104 gets to the nut locking the distributor and enables the mechanic to loosen nut, adjust timing, and lock distributor. Many other valuable uses around today's complicated engine.



K-D POLARITY TESTER

No. 123

prevents damage to alternator systems

The K-D Polarity Tester prevents costly damage to alternator systems and transistor radios due to reverse battery charging. Just put tool on battery terminals (6 or 12 volt) and when the light is steady and bright, you know you're right for charging. Also can be used as a general purpose tester for checking polarity in all types of circuitry.

$3.75
